The City of Toronto and Waterfront Toronto are developing a comprehensive long-term plan to guide the revitalization of the Port Lands. The plan will include direction for the transformation of the Port Lands into a number of new districts with a variety of uses including residential, commercial and parkland. This plan will build on the direction from the Port Lands Acceleration Initiative that was adopted by City Council in 2012.

A Master Plan under the Municipal Class Environmental Assessment (EA) process is also being developed to establish the street network (including transit), and the water, wastewater and stormwater infrastructure needed to support revitalization. The Master Plan applies to most of the Port Lands and to the area referred to as "South of Eastern" (located north of Lake Shore Boulevard East, south of Eastern Avenue, between the Don River and Coxwell Avenue). The Master Plan will provide a coordinated transportation and servicing strategy between the two areas.

South of Eastern Strategic Direction:

A separate community consultation meeting for the planning study for the South of Eastern area will be held on February 18, 2014. A meeting notice will be issued shortly.
